## Obvestilo za ponudnike hrane na množičnem dogodku

Spoštovani,

v prihajajočih tednih oziroma mesecih se bo v vašem kraju odvijal dogodek, na katerem se pričakuje večje število udeležencev. Pri množičnih dogodkih in polno zasedenih nastanitvenih ter prireditvenih kapacitetah je možnost širjenja nalezljivih bolezni večja. S tem zavedanjem želimo vse odgovorne osebe predhodno opozoriti na nekaj ukrepov, z upoštevanjem katerih bi lahko preprečili neljube dogodke, kot so pojav nalezljivih bolezni, zastrupitve s hrano med udeleženci in obiskovalci dogodka ter s tem povezanimi stroški in izgubo dobrega imena organizatorja dogodka.

Nosilci živilskih dejavnosti naj za zagotavljanje varne hrane upoštevajo zahteve Uredbe (ES) št. 852/2004 o higieni živil. V tem smislu morajo izvajati **programe dobre higienske prakse** (npr. splošne in posebne zahteve za prostore živilskega obrata, prevoz, zahteve glede opreme, ostankov živil, oskrbe z vodo, osebne higiene, čiščenja, nadzora škodljivcev) in **postopke, ki temeljijo na načelih sistema HACCP**. Nosilci živilske dejavnosti naj posebno pozornost posvetijo:

- izpolnjevanju zahtev za premične in/aličasne obrate,
- usposabljanju zaposlenih o varnem rokovanju s hrano,
- vzdrževanju primerne osebne higiene,
- izpolnjevanju soglasij delavca k obveznosti prijavljanja bolezni, ki se lahko prenašajo z delom.

Podrobnejše informacije so dostopne na spletnem naslovu Nacionalnega inštituta za javno zdravje (NIJZ) in Urada za varno hrano, veterino in varstvo rastlin (UVHVVR):

- [Osnovna higienska stališča za higieno živil, namenjena delavcem v živilski dejavnosti](#) (NIJZ);
- [Higienska stališča za higieno živil, namenjena delavcem v živilski dejavnosti / 2.st.](#) (NIJZ);
- [Varna hrana](#) (UVHVVR).

**V času dogodka in tudi sicer je potrebno zagotavljati sanitarno tehnično in sanitarno higiensko vzdrževanje objektov ter ravnanje z odpadki na način, da le-ti ne ogrožajo zdravja ljudi in ne povzročajo čezmerne obremenitve okolja.**

Želeli bi vas opozoriti še na dosledno spoštovanje prepovedi ponudbe in prodaje alkoholnih pijač osebam, mlajšim od 18 let, prepovedi kajenja v javnih zaprtih prostorih ter uživanja hrane in pijače v kadirnicah.

*The basis for these recommendations is a discussion with the Inspectorate for Food Safety, Veterinary, and Plant Protection. Please adhere to them.*

- a. Catering providers must be registered to operate in the catering industry and must have all the required permits according to the current regulations in the Republic of Slovenia.*
- b. Catering providers operating outside the premises, in mobile facilities, or with structures, means, or devices adapted for this purpose (e.g., stalls, modular wooden houses) must be registered for activities in a mobile catering facility.*
- c. The holder of catering activities (hereinafter: catering provider) is responsible for regularly checking the implementation of all requirements and guidelines referred to in establishing a system to ensure hygiene requirements and procedures based on HACCP standard principles.*
- d. In a mobile operation, catering providers must ensure suitable space and equipment for hygienic food storage and maintaining the appropriate food temperature with the ability to monitor this temperature (recommended: use of a probe thermometer).*
- e. Foods must be stored to prevent contamination and infections, not placed on the floor, covered, and protected from dust and contamination (e.g., from pests, direct contact of visitors with food).*
- f. Proof of traceability must accompany food, where catering providers confirm that the supplied foods and materials are safe and comply with legal requirements (e.g., delivery note, invoices, etc.) available at the location.*
- g. Allergen information must be legible and displayed prominently, or there must be a notice indicating where the list of allergens is kept on the stall/mobile facility.*
- h. Catering providers must ensure workplace hygiene (protective floor mat, cleaning materials – disposable towels and soap, use clean and properly maintained work items, tools, utensils, and equipment).*

*i. In a mobile facility, catering providers must provide access to drinking water (for food preparation, handwashing, and cleaning) and wastewater disposal (catering providers must have wastewater traps, e.g., plastic containers, and take wastewater back to the catering facility).*
